# WHO WE ARE?

Urea Export is a global trading platform specializing in the supply and export of high-quality Urea N46 sourced from leading producers across the Middle East, Central Asia, and CIS. We manage the entire export chain from production allocation and quality control to logistics, documentation, and international delivery.

# YOUR TRUSTED LINK TO THE WORLD'S LEADING *UREA PRODUCERS*

Urea Export is built on a simple but powerful foundation: connecting global buyers with *dependable, certified, and high-quality urea producers* across the Middle East, Central Asia, and the CIS.

Through long-standing relationships with reputable production partners, we ensure that every buyer receives transparent information, consistent communication, and authentic origin-verified products without intermediaries or unnecessary complexity.

*Our approach reduces buyer risk, enhances supply stability, and provides a clear, structured process from inquiry to delivery.*

## **OUR VISION**

*To lead the international urea market with consistent supply, competitive pricing, and unmatched operational reliability.*

## **OUR MISSION**

*To bridge global demand with reliable production sources while ensuring compliance, documentation accuracy, and on-time delivery for every shipment.*

## **OUR CORE VALUES**

*Reliability | Compliance | Market Expertise | Performance | Global Reliability*
